More...

- Click on the 'More' tab on the bottom toolbar to access your notifications inbox
- Every now & then we will send a 'push notification' or a message through the app. If you would like to stop this, please click on the 'Notifications Categories' & untick which groups you don't want to receive information about.
- For example we might send a notification about a Young Adults event coming up. If you are not a Young Adult between 18-30 then we recommend unticking this section
